BRAND AUDIT

IF I HAD 15 MINUTES TO AUDIT YOUR BRAND, HERE'S WHAT I WOULD LOOK AT.

Five checkpoints that tell me whether your brand is communicating its value effectively.

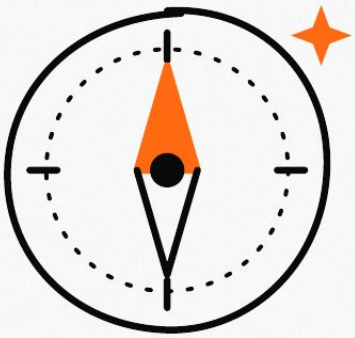

01 POSITIONING

CAN I TELL WHAT YOUR BRAND STANDS FOR?

I'd start by looking at your positioning.

- ✓ What do you offer?
- ✓ Who do you serve?
- ✓ What problem do you solve?
- ✓ What do you want to be known for?

If I have to spend too much time figuring out what your business does and why it matters, **your positioning may need attention.**

THE TEST

Can a stranger understand what your business does within a few seconds of visiting your page?

02 AUDIENCE

ARE YOU SPEAKING TO THE RIGHT PEOPLE?

I'd examine who your brand is trying to reach.

- ✓ Do you have a clearly defined audience?
- ✓ Do you understand their needs and challenges?
- ✓ Does your content address the things they care about?
- ✓ Are you attracting the people who can benefit from your offer?

A brand can have excellent content and still struggle to convert because **it is speaking to the wrong audience.**

THE TEST

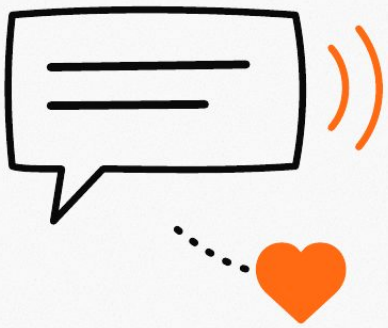

Would your ideal customer recognise themselves in your content?

03 MESSAGING

DOES YOUR MESSAGE COMMUNICATE YOUR VALUE?

I'd look at the words your brand uses across its platforms.

- ✓ Is your message clear?
- ✓ Is your communication consistent?
- ✓ Does your content explain the value of your offer?
- ✓ Can people understand why they should care?

Your audience **shouldn't have to interpret your message** to understand what you bring to the table.

THE TEST

After reading three of your recent posts, can someone explain what your brand stands for and why your offer matters?

04 DIFFERENTIATION

WHY SHOULD SOMEONE CHOOSE YOU?

I'd examine what separates your brand from others offering similar products or services.

- ✓ What do you do differently?
- ✓ What is distinctive about your approach?
- ✓ What experience, expertise or perspective do you bring?
- ✓ Can people identify a reason to choose you?

Saying you offer quality service or put customers first isn't enough. **Other businesses can make the same claims.**

THE TEST

If I removed your logo and brand name, would your communication still give me a reason to recognise or choose you?

05 CALLS TO ACTION

ARE YOU TELLING PEOPLE WHAT TO DO NEXT?

I'd examine how your brand moves people from attention to action.

- ✓ Do your posts have clear calls to action?
- ✓ Is it easy to enquire about your services?
- ✓ Can people find your contact information?
- ✓ Is there a clear path from discovering your brand to making a purchase?

You can attract the right audience and communicate your value, but still lose customers **if the next step isn't clear.**

THE TEST

If someone wanted to buy from you today, would they know exactly what to do?

YOUR BRAND MAY NOT NEED MORE CONTENT. IT MAY NEED A BETTER STRATEGY.

MORE CONTENT

BETTER STRATEGY

These five checkpoints give me a starting point for understanding where a brand is strong, where communication is breaking down and what needs attention.

Because before recommending more content, a new campaign or a complete rebrand, **I want to understand the problem.**
